KIDNEY CURE

OIL TRUST METHODS.

KIDNEY CURE

Ex-Employee's Charges Before Industrial Commission.

Knocking Out of Competitors.

Alleged One at Newark, N. J., Was Landed in the Courthouse—Declaratory Different Grades of Oil Were Sold From the Same Tank.

WASHINGTON, June 9.—The industrial commission resumed its investigation of trusts, the Standard Oil company receiving special attention. Mr. W. H. Clark of Ohio, who came to the attention of the commission by the Standard Oil company in various towns in that state, but was suspended, testified that while employed at Marietta the Standard had ousted other companies from business by competition and then put up the price of oil. He said that eight nominal grades of oil were sold out of only two tanks, the fact being turned in different directions for different grades. This was done, he said, under instructions from the managers for the Standard company. Messrs. Matthews and Hollingsworth, Mr. Clark also said, testified that the company bought and sold turpentine, but before selling it would put six or seven gallons of gasoline in each barrel of turpentine.

At Columbus, Mr. Clark was the cashier of the Standard company. At that point, he said, much oil was adulterated. For instance, miners' oil was made by mixing in a live oil, called here the Standard company's, but it was not for him to say about such matters, but to do what he was told.

At Springfield, Mr. Clark said, he was a wage salesman and the instructions there were to get trade regardless of the price. Some refined oil was sold as low as four cents and here also as many as four nominal grades of oil were taken from one tank. Rebates were made when necessary. When he had spoken to the management of the dishonesty of these practices, he had been told that it was not for him to say about such matters, but to do what he was told.

At Utriana, he said, he was manager for the Standard company. Here a competitor was driven down to a cent a gallon. The competitor afterward went to the courthouse. Witness for a time was manager at Newark. Here the work was very hard because of the range of prices. There were 25 different grades of oil. One man would get oil for 7 cents while his next door neighbor would get it for a barrel of oil. The witness said that at Newark the company bought a building from a leaser's head, who was doing a competitive business, and Mr. Clark, with other men, went into the building in the absence of the competitor, loaded the building on carts and carried it away. For this he (Mr. Clark) was complimented and was to have been rewarded with a two weeks' vacation, while the competitor was so frightened that he went out of the business. It was not accomplished, however, until all his customers had been lured by a boy employed to follow his wagon on a bicycle.

At Newark a customer wanted oil from Cleveland. He was satisfied by supplying him out of a barrel painted red and marked as if from Cleveland. He received the same oil, however, that other people got.

The witness said that laborers for the Standard company were generally paid 76 cents a day, and that they worked on an average of 12 hours a day.

There was, he said, often a difference of 4 cents a gallon in the price of oil between places where there was competition and places where there was none.

AGUINALDO'S PLAN.

Maybe Became Dictator to Shake Pilar and Luna.

Probably to Make Peace.

He Can Bend His Opponents to His Will, He Might Be Able to Make Better Terms For Himself—Vessels Taken by Gunboat—Dispatches From Oils.

WASHINGTON, June 9.—Officials here were in doubt as to whether Aguinaldo in declaring his dictatorship was animated by a desire to rid himself of his refractory generals, Pilar and Luna, or whether he intended to consolidate in his own hands the power to make terms of peace. It is known from the reports of President Schurman of the American Philippine commission, that these two generals owe only taint allegiance to Aguinaldo and their attitude toward the peace negotiations has made these negotiations ineffective. The division members on the Filipino side of the joint commission being completely overawed and dominated by the military element controlled by these generals. It was believed here that if Aguinaldo could bend these men to his will and assume supreme control, he will at once make offers for peace, being able to secure better terms for himself than he would otherwise.
